

## MyGeneTeam Extract and Hold (TG17) Simplify Genetic Counseling and Testing for Your Practice

Order genetic test and TG17: MyGeneTeam Extract and Hold

Send test orders and specimen to laboratory

Specimen arrives at laboratory and test is placed on hold

Laboratory initiates prior authorization, if required

Testing proceeds and results are released

Send completed referral to MyGeneTeam

MyGeneTeam contacts patient to schedule genetic counseling

Patient is counseled, genetic counselor updates test order (if applicable) and activates testing

If patient was referred for post-test counseling, MyGeneTeam contacts patient to schedule and counseling is provided
